## SUMMARY

Result-driven Senior Android Developer with 3+ years of experience engineering scalable, robust, and real-time mobile solutions to streamline business operations and elevate user experiences.

## SKILLS

**Languages:** Kotlin, Java, XML, SQL

**Frameworks:** Jetpack Compose, Android SDK, MVVM, MVC, Room, Firebase, Retrofit, REST APIs, WorkManager, BLE APIs

**Libraries:** Dagger Hilt, Glide, Gson

**Tools:** Android Studio, Git, GitHub, Google Play Console

## EXPERIENCE

### Brucode Technologies Pvt. Ltd.

May 2025 – Present

#### Senior Android Developer

- Engineered modular Android features, resolving critical bugs to optimize runtime speed, UI stability, and memory efficiency.
- Architected end-to-end applications through tight cross-functional collaboration and direct client-requirement mapping.
- Spearheaded production rollouts, managing CI/CD lifecycles, and distribution channels on Google Play Console.

### Ultivic Pvt. Ltd.

January 2023 – April 2025

#### Android Developer

- Developed scalable native applications prioritizing high-fidelity layouts, crisp UI, and robust asset integration.
- Contributed to codebase maintenance, structural refactoring, and code reviews across multiple concurrent project streams.

### Omninos Technologies Pvt. Ltd.

Jul. 2022 – Dec. 2022

#### Android Developer Intern

- Built core feature sets using Java, Android Studio IDE, and foundational SDK components during production cycles.
- Delivered standard functional project deliverables on-schedule while actively adhering to agile development sprints.

## PROJECTS

### Hublix SP (Service Provider) & Hublix OSM (On-Site Manager) – Vehicle Management Software

- Created a SaaS vehicle management suite handling automated Invoice Generation, Inspection logs, Vehicle Inspection, Incident Report, Vehicle Transfer, Expense flows and Recruitment Flow.
- Independently managed the Google Play Console lifecycle, leading the end-to-end rebranding strategy from Celerity to Hublix, and establishing the new console account to orchestrate all subsequent production releases and application updates.
- Technologies:** Kotlin, XML, MVVM, Room, Firebase, WorkManager, REST APIs, Background Upload, Third-Party SDKs.
- Link:** [Google Play Store](#)

### Vega Social Lab (Social Media Application)

- Successfully delivered targeted product milestones under agile management, implementing the end-to-end UI and API infrastructure for the Reels and Profile modules while scaling the local Room database architecture to support new data schemas.
- Technologies:** Jetpack Compose, Kotlin, Multi-module Clean Architecture, Room, Firebase, REST APIs, Dagger Hilt.
- Status:** Under Development

### Vue Lite (Vue Glasses Support Application)

- Developed a hardware-integrated utility application leveraging native Android hardware APIs for real-time device control.
- Technologies:** Kotlin, MVC, Android BLE APIs, Notifications, Retrofit, REST APIs.
- Link:** [Google Play Store](#)

### Other Projects

- Projects:** TV application, Watch OS application, Trader Phd, Reson18, Loudly, and Speaker Tester.
- Responsibilities:** Contributed across a robust portfolio of live application ecosystems, driving comprehensive UI/UX enhancements, critical production bug resolutions, target SDK version migrations, and continuous lifecycle maintenance.
- Technologies:** Native Android SDK, Wear OS / Android TV APIs, Legacy Code Refactoring, UI/UX Optimization, Target SDK Migrations.

## EDUCATION

### Guru Nanak Dev University

July 2018 – May 2021

Bachelor of Computer Applications

Amritsar, Punjab

### Senior Secondary Residential School for Meritorious Students

April 2016 – March 2018

Science Stream

Amritsar, Punjab

### Government Senior Secondary School

April 2015 – March 2016

High School

Pathankot, Punjab
